## LIVE PERFORMANCE

**Automates** *Le Marionnettiste* (Joan et Cédric) a posé le premier concept de conte VJ selon une narration performée où les images mêlent vidéo, dessins et animations. Par un agencement *live* de séquences visuelles et de musique électronique au services d'une continuité de fragments à l'ordre modulable, leur art est à l'écoute du public. *Le Voyage de Marion* est une allégorie sur le couple, la complémentarité des êtres, l'homme et ses doubles : un voyage initiatique multimédia qui déconstruit l'idéologie du destin par une mise en abîme du mythe de l'éternel retour et du contrôle de l'homme par l'homme.
