### VIDEO

The concert is accompanied by an important video creation, for almost all the songs.  
A quality reception in video is essential to the good rendering of the concert.

Please provide us with :

3x videoprojector - minimum specs : 5000 lumens, Full HD

- The video projectors must be centered and placed on a pole above the room, as long as it projects fully onto the screen without distortion
- The signal is sent via HDMI from the computer of our video director-
